

Calling all East High School Alumni To Action

On August 5, 2017 The Class of 1967 in partnership with Principal Darryl King is proud to announce the creation of the East High Alumni Association. The association will be made up of anyone who “attended or graduated” from what is now known as **East Community High School**. **You have 2 action items: (1)** share this article with your contacts and **(2)** send your contact info to one of the individuals below.

We will work with the principals and their respective staff to raise revenues in support of programs that will improve the educational & economic outcomes of the current and future students. The programs will include mentorship, Science, Technology, Engineering, Entrepreneurship, Math (STEEM) activities and life cycle planning.

The challenges that the young people face today are much more challenging than what most of us faced in our formative years. In order for young people and their parents to successfully compete in today’s global society, their in school education must be complimented by an Alumni Association with members of all ages to freely use their time, talent and treasury to give back to future generations of young people.

We are very much focused on building a database of people who have attended East that are willing to provide a much needed support system for the students and faculty. Over the years we have heard of teachers that have reached into their own pockets to buy supplies for their classes. We now want to create a pocket of resources as a thank you for all of the knowledge teachers selflessly shared with us during our time together.

The bible teaches and we learned that without vision the people perish and we strongly believe our involvement with the kids and their families will dramatically change the trajectory of their dreams. We want to create a mindset that has students prepared to create companies not merely work at a one.

Obtaining a good educational foundation will give them something to look forward to as they prepare for a future that will produce better eco-

nomical outcomes for them and their families. Our primary message to them is “What ever you are dreaming ... dream bigger”!

The association will be formally launched on August 4-6, 2017 at our reunion’s weekend. All are welcome so save the date additional information will follow. We would like to get contact with as many Alums as possible so we can properly plan our activities.

The format for the weekend is:

Friday Welcome Reception

Saturday - All High Old School Jam

Sunday - Worship Service followed by a Picnic at MLK park

For additional information send your contact information (Name, Address, Phone numbers, email address, year you graduated) to:
